

The Giving Tree

During the holiday season, we participated in our annual Christmas project for the residents of the Green Mountain Nursing Home in Colchester. We have been doing this for several years now and it is a wonderful holiday project where we provide gifts for the residents. Without our gifts, many of these residents would receive no gifts at all. Most of the gifts they request are very simple and inexpensive. Items such as sweaters, perfume, socks, lotion, slippers, stuffed animals, blankets, or books are some of the more common requests.

Thank you to everyone who participated this year! This project is such a simple way to bring a little joy and holiday spirit to many folks who would otherwise have nothing to look forward to.
