“We have worked with GFC for over 15 years in many capacities, including annual financial statement and benefit plan audits, tax compliance and advisory services, and financial due diligence services around acquisition transactions. We have found that GFC has the depth and expertise that we have needed over the years to handle what we have asked of them as we have continued to grow nationally and internationally and become more complex. We appreciate their understanding of our businesses and their pragmatic approach to helping us negotiate the accounting and tax challenges that we encounter as we grow and expand. They are a critical trusted partner.”
